Voena is a singing group from Solano County that originated in Benicia. They are selling tickets for their fundraiser in which the winner will receive a dinner at the French Laundry.

Shane McAfee loaded a case of diet coke on his truck, to give to Kathe Chandler for winning last weeks football picks. However when Shane loaded up the case he left it on the bumper of his truck. How it didn't stay there all the way across town, will be a mystery. Bottom line is, Kathe never got her case of coke.

GVRD, seems to have trouble with their address and inadvertently sent a check to the Rotary for \$300, that was intended for the Chamber of Commerce. Shane will pay for this mistake next week.

A past president pin has been found and we are looking for a person who lost it. If you attended last weeks presidents meeting, you may have lost your pin. Check your jewelry box at home.

Joke for the week:

There was a nativity scene was spotted on a women lawn from Alabama's and all three wise men were wearing fire helmets. A curious man asked the women why the men were wearing hats. "Doesn't any one read their bible anymore", she says. She pulls out her bible and shows it to the man, see it says right here, "the three wise-men traveled to town from afire"!

Program

Pete Friesen filled in for Tom Phillip and shared with us about Leadership Vallejo.

One of the things that is important about Leadership Vallejo is keeping your commitments. While Tom Phillips did not keep his commitment to be our speaker today, he did remember to attend the past presidents meeting last Monday night, in which he received a free dinner.

Moving right along, Pete went on to discuss the history of how Leadership Vallejo was formed and how important it is to our community. The leadership classes start in January on the 4th Friday and meets once a month through August or September. They currently have 9 students and would like to get closer to 20 persons.

The leadership's course concept is to take person's that are business leaders in the community, or those who wish to be business leaders, and mentor them on Vallejo's business climate as well as the cities historical background. Leadership Vallejo offers courses in: Vallejo's Past Present and Future, Government, Health and Human Services, Economic development, Transportation, Revitalization, Arts, Education and Environment. The course is very beneficial for employers that want to educate their employees on the many important aspect of doing business in Vallejo.

If you know of anyone who may be interested in the class, please contact Tom Philips or Pete Freisen. The class costs approximately \$1,000. This is the 8th year of Leadership Vallejo and it is searching for sponsorships to help out financially. Pete would like to see the organization accumulate up to \$50,000 in the operating account to support this worthwhile program.

Our very own Kathe Chandler is a graduate of the Leadership Vallejo in year two. That year the focus was re-branding Vallejo's image. To this day the courses efforts are still sustainable in making Vallejo a better place to do business. The course also helps people manage their decision making when resolving potential issues that come up in business.

Shane has donated his facility for seminars and lunches for the leadership meetings. Also, he has sent three employees through the program.

Tony Shannon also went through the course and learned quite a bit about Vallejo, from person's like former Mayor Terry Curtola. The students met at lots of different locations and there are so many components that are taught throughout the sessions. The course also opens up potential contacts with city personnel, and business leaders.

The club will be donating a \$1000 to a club member to join in the Leadership Vallejo.

Mystery Handshaker

Gary Salvadori is the winner.

Padre' Scott Peterson then shared with us about his 6th trip to Israel. This was his best trip ever. It was peaceful everywhere they went. Whether they were in the Arab sections or the Jewish section, they witnessed children playing throughout the neighborhoods, some without parental guidance. He attended the temple mount and had no problem with security. At the temple mount there are morality codes. Scott's group did encounter one problem, when the women in his group were asked to cover up their bodies with their shawls because there was too much skin showing. (Didn't know that Scott's heirus traveled in bikinis), Scott went to Jericho and more places that he hadn't been before.

Meeting adjourned at 1:30pm
