This is a collaboration with Hospitals, High Schools, Police and Service Clubs. This event will help prevent drunk driving deaths that occur among our youths. Our District gave \$13,000 and in addition to grant money, will help subsidize this great event. This type of event will help get our name out to the community and help build our club #'s so that we can reach our goal of 100 members for Rotary's 100 anniversary.

Robert gave \$5 because he was very excited to have his son, who is a 3rd grader, there in the classroom while he was delivering dictionaries.

Joke for the week:

A lawyer from California is driving in West Virginia and a police officer pulls him over. The lawyer asked the officer why he is being pulled over. The officer said that he failed to completely stop sign. The lawyer said that he did slow down nearly stopped and then continued. The lawyer, feeling confident that he is a much more intelligent person, than a West Virginian, asks the officer if he could define for him the difference between nearly stopping and stopping and if he could he would gladly accept the ticket but if he couldn't then perhaps he should let him go. The officer said sure, and asked the lawyer to get out of the car, which at that point he began to beat the lawyer with his baton violently to his body. As he is doing this, the officer asks the attorney if he would like him to stop or slow down?
